LANGUAGES

English B2

COURSEWORK

GRADUATE

Data Structures and Algorithms

Open Source Software Engineering

Cloud Computing

Computer Networks

Unix Tools and Scripting

Operating Systems

Functional Programming

SKILLS

PROGRAMMING

Over 5000 lines:

- C++ • Typescript • Javascript
- HTML • CSS • SCSS
- React • Nextjs • Redux
- Nodejs • SQL (PostgreSQL, Redis)

Familiar:

Algorithms and Data Structures

Design Patterns, Programming Paradigms

Software Architecture Patterns

(OOP, Functional Programming)

Docker, Kubernetes

Database Normalization

REST, GraphQL

Unix, Linux, Vim

EXPERIENCE

A2Z TECHNOLOGIES | SOFTWARE ENGINEER

April 2022 – present | Baku, Azerbaijan

- I am working in the ICT Department's Product Service Development Unit, where we are creating software for internal usage as well as services for subscribers.
